Killion Industries, Inc. heads into the new millennium with energy and enthusiasm spurred on by new and expanded facilities and continued investment in state of the art equipment. Although we have been a leading source for innovative quality store fixtures around the globe for more than 21 years, Y2K brings new opportunities as well as continued partnership with top retailers around the globe. Among our current customers, you will find Albertson's, Target, The Great Atlantic and Pacific Tea Company (A&P), Smith's Food & Drug, Costco, Bi-Lo (Ahold Division), Kroger and Safeway. Exporting products around the world: Mexico, Saudi Arabia, Panama, United Kingdom, Poland, Japan and Canada are several of our current destinations.

To manufacture our current product lines, we operate in 200,000 square feet of company owned production space. These modern facilities include our new, twin building 160,000 square foot production facility and corporate office as well as continued operation of our existing 40,000 square foot facility on La Mirada Drive. Complete CNC production of Killion Checkout, Killion Produce and Bakery Fixtures as well as, Killion Refrigeration flows through our state of the art Poinsettia buildings. Our La Mirada location is dedicated to the final production of Killion Produce and Bakery Fixtures as well as Killion Refrigeration. Eleven loading docks between the three buildings ensure on time shipments to

meet the delivery date requirements of our customers.

At Killion, advanced CAD/CAM software coupled with CNC routers by SHODA & KOMO bring us to the forefront of Computer Integrated Manufacturing (CIM). By utilizing CIM, we have the capability to produce custom fixture designs to your specific requirements. Our modular construction gives you the flexibility of modern designs that are easy to install and maintain. We work with you to accommodate the latest technological advances to create highly functional fixtures reflecting detailed attention to operating efficiency, ergonomic considerations and aesthetic goals.
